

Z-Bar Deployment Spindle

Upper Arm = 40 lbs

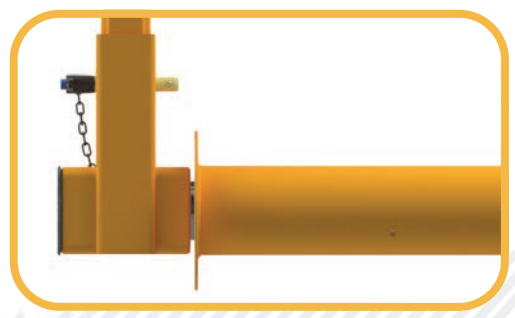

Spindle = 53 lbs

The Z-Bar is a part of DemTech's family of Lightweight, Durable, and Efficient Deployment systems and is best used in tandem with Spreader-Bar and Pro-Puller units.

A removable pin allows for the Z-bar to be separated into two segments for quick and easy loading of Roll Goods as well as compact shipping & storage

The Z-Bar's Spindle Flange allows users to efficiently load Roll Goods without worrying about edge defects during deployment.
